

Andrea Hambach

I have lived in Alaska for 15 years, the last 13 of those in Willow as a resident and property owner. Professionally, I work as a veterinarian in the Mat-Su Valley. My husband and I are avid runners and try to travel as many trails, bike paths and roads as we can to explore the area. I have an interest in outdoor recreation, especially trail management, development and maintenance for all user groups. My husband and I are raising our kids here in Willow and would like to continue to improve Willow's sense of community and way of life.
