Memorandum of Agreement for Container Refurbishment for Recycling Purposes

In an effort to reduce the amount of waste making its way into the Matanuska-Susitna Borough's Central Landfill, the borough is providing 40-yard containers to Communities participating in the Borough Solid Waste Division Recycling program to refurbish them for the purpose of recycling. The borough is entering into this agreement with Willow Area Community Organization.

Matanuska-Susitna Borough agrees:

- 1) MSB will maintain ownership of the containers.
- 2) MSB will provide containers to Willow Area Community Organization for refurbishment into the recycling configuration according to the plans provided in Attachment A of this agreement.
- 3) MSB will deliver the container to the Community Councils refurbishing vendor of choice, and will pick up that container and deliver it to the local transfer station.
- 4) MSB will haul the full recycling bins from the transfer site to the recycling hub based on the judgment of the Transfer site operator relative to its fullness.
- 5) MSB will deliver recycling bins and haul the recycling regularly at MSB's expense.
- 6) If a recycling program ceases, MSB will retake possession of the recycling bins after 60 days.
- 7) MSB has no responsibility to continue the recycling program if the recycling program has ceased.
- 8) MSB will NOT pay for or reimburse Willow Area Community Organization for the cost of refurbishment under any circumstances.

Willow Area Community Organization agrees:

- 9) The recycling bins will be refurbished according to the plans provided in attachment A.
- 10) To coordinate any recycling efforts between the public, recycling businesses, and themselves.
- 11) To notify MSB if recycling programs cease.
- 12) To adhere to the MSB advertising policy. All advertisements on recycling bins will be reviewed by MSB to ensure advertisement policy compliance prior to use. MSB may paint over any advertising that is not in compliance.
